ceramik art

The studio of Ceramik-Art came into existence in 2003.

Despite hard conditions in the beginning we have started a production of home and garden decorations, but we would never be successful without perseverance and huge involvement of the artists working for our company.

All of our products are made of natural and ecological materials, that is for example clay. This is why our flowerpots let plants breathe, which guarantees perfect conditions to its proper growth.

In our studio we also make figurines of angels, animals and ceramic pictures, which will look gorgeous in Your living rooms and dining rooms.

People that take care of design and workmanship are artists who put their hearts in creating beautiful handmade modern art.

The unique design and aesthetic make our products sought after and well-selling in many countries.

In 2008 the company got ISO 9001-2000 certificate.

In 2013 we got DecoTrends award for promotion and trend creation.

Using money given to us by the European Union we could build our own seat of business. Thanks to this we have moved to new, spacious building. Its area is nearly 1200m² and it is located in Lublin, ul. Konstruktorów 34.

Nowadays in Europe, the interest of our artifact grows radically.

We are very pleased that our job gives so much joy and we hope that our firm is going to develop during the next years.

The owners and the artists.
